CATALYTIC LEARNING DAY 2014

PHOTOGRAPHY BRIEF

Your job is to capture the learning of Year 9 students working in Visual & Media Arts. Use your skills as a street photographer to document:

- different activities - research, discussion, designing, making etc.
- portraits of the students and teachers taking part
- pictures of the banners as they take shape

You should also think about:

- what kind of camera you are going to use (iPod Touch and/or DSLR)
- how you can experiment with different camera angles
- how you compose your images (e.g. Rule of Thirds, diagonals etc.)
- making sure your images are in focus and well-lit

Don't forget to make time to share your images on your Weebly sites!

GOOD LUCK
